Correction: The modified 5-item frailty index in total hip arthroplasty patients: a retrospective cohort from a low-middle income country

Usman Ali^{1*}, Shahzil Abdur Rehman Malik¹, Bilal Iqbal¹, Aribah Bhatti², Sher Baz Khan¹, Shahryar Noordin¹ and Anum Ali^{1,3}

Correction: *Journal of Orthopaedic Surgery and Research* (2025) 20: 299

<https://doi.org/10.1186/s13018-025-05505-9>

In the third paragraph of the introduction section, in the sentence beginning 'The modified frailty index, mFI-5, is a frailty...' in this article, the text 'ischemic heart disease (IHD)' should have read 'congestive heart failure (CHF)'.

In the results section, the percentages for ischemic heart disease (IHD) and hypertension (HTN) were swapped in the text.

The sentence currently reads:

The presence of diabetes (59.46%), hypertension (11.89%), and ischemic heart disease (91.89%) was more common in the mFI-5 (> 1) group.

The sentence should read:

The presence of diabetes (59.46%), hypertension (91.89%), and IHD (29.19%) was more common in the mFI-5 (>1) group.
